The following is an examiner's statement of reasons for allowance: the prior art taken alone or in combination neither discloses nor makes obvious the instant invention including introducing a second agent comprising hydrogen peroxide onto a surface of a metal plug through a polisher while polishing with a first agent a metal layer formed over the metal plug; and after polishing a metal layer formed over a metal plug, spraying a solution comprising hydrogen peroxide onto a surface of the metal plug, wherein spraying includes driving at least one particle off the surface of the metal plug with the solution. Therefore, the prior art of record neither anticipates nor renders obvious the claimed subject matter.
